

Creating solutions

KUHNE Smart Sheets

Remote Lens - your direct path to the solution

- Connect your operator directly via Remote Lens with our experts at KUHNE
- Seeing the problem and showing it at the same time
- Complicated descriptions and unnecessary interventions can be avoided
- Dialogue is translated simultaneously in multiple languages or can be held in our written chat
- The active suppression of noise allows very clear communication without disturbing background noise
- The exchange of data such as pictures, videos or electric drawings works easily in both ways
- With available WIFI, a transmission in HD quality is possible
- Only one avoided intervention of a technician already pays off the glasses

When it comes to remote service, KUHNE is the clear choice:

The Remote Data Lens.
